

Established in 2023, OchaTEK Solutions is one of Canada's rapidly growing agencies in the field of high-tech solutions. With our outstanding team of engineers, technicians and developers, we have been able to achieve significant breakthroughs in automation and artificial intelligence.

OchaTEK Solutions provide services in a wide range of applications, such as:

- Development of customized applications and web services.
- Implement, train and deploy Artificial Intelligence and Machine Learning models.
- Design and host websites and web applications.
- Computer networks installation and protection against Cybersecurity attacks.
- Custom-built computer interfacing and human-machine interfaces.
- Customized Internet of Things sensors and decision makers.

OchaTEK Solutions has been able to assist several businesses and companies improve the efficiency of their workflow. Some of our recent projects are:

- Design, implementation and installation of a system to automate the wood-cutting process for Altok Orman Urunleri company in Turkey.
- Design, implementation and installation of remote data sensing, collection and processing for Altok Orman Urunleri company in Turkey.
- Design, implementation and deployment of a custom-built web service for several businesses in Canada.

- Design, implementation and hosting of several websites for different businesses all around the world.
- Design, implementation and publishing an IoT service, ProxyOT, which proxies complex tasks execution for low-cost IoT devices.
